Welcomes the public to

OPEN HOUSE in the White Mountains at **CROOKED CREEK RESEARCH STATION**

Sunday, August 17, 2014 10:00AM - 4:00PM

The Crooked Creek Research Station is situated near the Ancient Bristlecone Pine Forest at an elevation of 3094 m (10,200') in the White Mountains of eastern California. This unique research station is a beautiful log cabin style building which now operates off grid by utilizing solar power.

Open House activities will include tours of the station, a series of talks by researchers and staff, featured artwork, a digital display of plants of the White Mountains, light refreshments, and a chance to meet with staff and researchers.

Crooked Creek Station Open House will begin at 10:00AM and will end at 4:00PM.

Researcher talks and other presentations will begin at 10:30am. A schedule of talks and tours will be available at the station. Bring a lunch and enjoy a day in the White Mountains at the Crooked Creek Station!
